## Setting the Standard for the Best Wireless Experience

The Wireless Experience is a leading wireless solution and home automation AT&T retailer operating over 60 locations in New Jersey, Pennsylvania and Massachusetts. In 1997, they opened their first location in Manahawkin, New Jersey, as a CellularOne dealer. Over the past 20 years, they have changed with the business, becoming a Cingular Wireless Dealer, and are currently one of ten National Dealers for AT&T.

Built on the core values of customer service, trust, integrity, community and loyalty, The Wireless Experience is committed to setting the industry standard for customer service. From the beginning, their mission has been to introduce new technology that inspires and enhances the lives of their customers.

"We are constantly growing and adapting to meet ever-changing needs of the consumer. Whether they want the latest smartphone, mobile streaming of their favorite TV content, or cutting edge home automation and security, we are there to provide them with unmatched customer service and product selection," said Brian Wainwright, President of The Wireless Experience.

With over 300 employees, The Wireless Experience is

headquartered in Toms River, New Jersey. Working with local colleges and universities, they provide job placement and career training for employees who are new to the workforce. Each professional wireless consultant attends a training seminar, where they gain experience with AT&T wireless products, DIRECTV services, purchasing decisions, customer service and technical support.

The Wireless Experience is currently conducting multi-million-dollar remodeling projects and new store development. More updated locations allow them to showcase the latest available technologies and interactive experiences. Most stores feature a Digital Life display wall, which provides an interactive experience of the AT&T home automation security system.

The Wireless Experience is a proud supporter of local non-profits and charities including the Doug Flutie Foundation for Autism, Boy Scouts of America and Back on My Feet.
